“A Tradition Of Performance”®
The EMPI Advantage

EMPI has over thirty years experience manufacturing drive line components that meet O.E.M. specifications. Manufactured in QS 9000 / ISO 9002 / ISO/TS16949:2002 certified facilities. This catalog represents years of technical and manufacturing expertise which has given EMPI the ability to offer you the broadest range of New Constant Velocity Drive Axle Coverage available in the marketplace.

EMPI’s careful consolidation of many part numbers through the acquisition of the O.E.M. axles and careful evaluation by our Research and Development Department, equates to a lower inventory dollar investment to reach more application sales for you and your customers. EMPI is capable and willing to support you with manufacturing and assembly at our main facility based in Anaheim, CA, USA.

Combining our superior quality with industry leading technical support, customer service, quick order turnaround, and high order fill rate, EMPI will benefit your bottom line. Perhaps as important as eliminating potential comebacks by installing the right axle the first time.
